

Introducing **RAVEN 581** CHIMNEY SEAL

Raven Lining Systems is proud to introduce the newest member of its engineered wastewater lining solutions, the Raven 581. The 581, primarily used in chimney seals, is a modified polyurethane created for stopping I&I between the manhole frame and chimney area. This product is conveniently packaged in a no mess cartridge to make application easier. Raven 581's safety yellow color is designed to show when the proper film thickness is achieved, which is a key to providing lasting protection.

PRODUCT FEATURES & BENEFITS:

- Low moisture sensitivity
- Convenient dual 750ml cartridges, with 90° degree spray nozzle
- Easy to apply, with fast cure
- Low cost pneumatic spray dispenser
- Extremely flexible, over 600% elongation
- Excellent adhesion - Compatible with most substrates
- 100% solids = No VOC's
