

# ENGINEERED SOLUTIONS FOR LASTING PROTECTION

PROTECT WITH  
**CONFIDENCE**

## Benefits of Wastewater Solutions

- Eco-friendly, 100% solids, zero VOC's
- Proven corrosion, erosion and I&I protection in the harshest environments
- Superior adhesion even in the dampest conditions
- High build ability on vertical and overhead surfaces
- Material strength enhances structural integrity
- Fast return to service
- Products and solutions delivered through a network of trusted certified applicators

**WASTEWATER PROTECTIVE LININGS**

Raven Lining Systems is a company built on the confidence to create innovative engineered solutions for our partners. We take pride in developing relationships based on our high standards of integrity and commitment to excellence.

Raven® 405, the flagship product of Raven Lining Systems, is recognized as the industry standard for long-term performance in harsh, damp wastewater environments. The 400 product line includes ultra-high build sprayable epoxies that provide excellent chemical resistance, adhesion and long lasting service. When combined with a cementitious rebuild, you get the ultimate composite system offered in the industry.

**RAVEN PROVIDES A SUSTAINABLE SOLUTION FOR CORROSION PROTECTION IN WASTEWATER INFRASTRUCTURES THAT STANDS THE TEST OF TIME.**

## Wastewater Applications:

- Manholes
- Digesters
- Tunnels and pipelines
- Wastewater facilities
- Equipment
- General maintenance
- Manhole chimney seals
- Clarifiers
- Tanks and troughs
- Waterproofing
- Secondary containment
- Sumps and wet wells
- Floors and walls
