

Las Vegas, Nevada Clark County Biofilter Beds

Manufacturer:

Raven Lining Systems
13105 E. 61st Street,
Suite A
Broken Arrow, OK 74012
(918) 615-0020

Location:

Clark County,
Las Vegas, Nevada

Certified Applicator(s):

[National Coating and Lining](#) was founded in 2003 by core members of other construction companies dedicated to building upon their expertise, experience and dedication to carry on the same types of projects as they have for a number years in the coatings and linings industry.

Owner:

Clark County Reclamation District

Date of Project:

October 2014

Product(s):

[Raven 405](#), [Raven 155](#) & [Raven 171](#)
Sika 224

Type of structure(s):

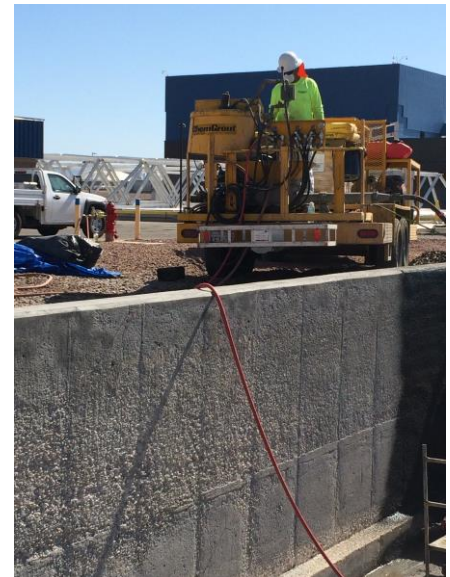

Concrete biofilter beds

Condition of Structure(s):

Bare degraded concrete

Description of Application:

The structure was abrasive blasted and completely restored with a high early repair cement. Working with open top exterior structures during hot sunny days coupled with concerns regarding out gassing and the wet common walls of in-service filter beds presented some project obstacles.
