

Raven Lining Systems

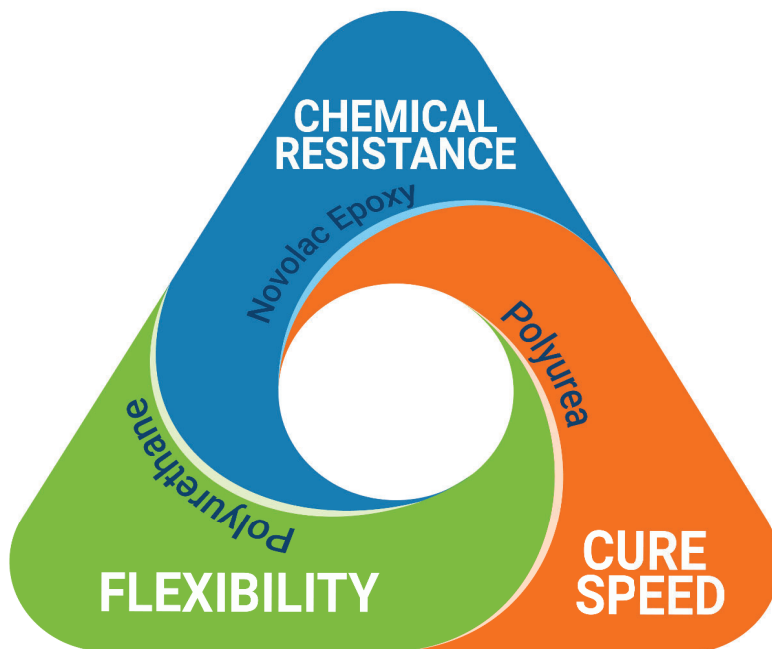

AQUATAFLEX®

Protect With Confidence®

AQUATAFLEX®

Innovation. Evolution. Your Solution!

AquataFlex® is a breakthrough in protective coating technology with a unique "Tri-Hybrid" chemistry that protects infrastructure from chemical and microbial attack while remaining safe for use in potable water systems.

**Withstands Harsh Chemical Exposure
Yet Safe For Potable Water Systems**

Protect With Confidence®

AquataFlex® is certified as a USDA Bio-Based product and is ANSI-61 certified for potable water applications. It has also successfully demonstrated the ability to handle the most aggressive sanitary sewer environments through Severe Wastewater Analysis Testing (SWAT) ASTM G 210.

Raven's products are designed to be the cleanest and safest protective linings on the market today and are trusted in the industry.

FEATURES AND PERFORMANCE

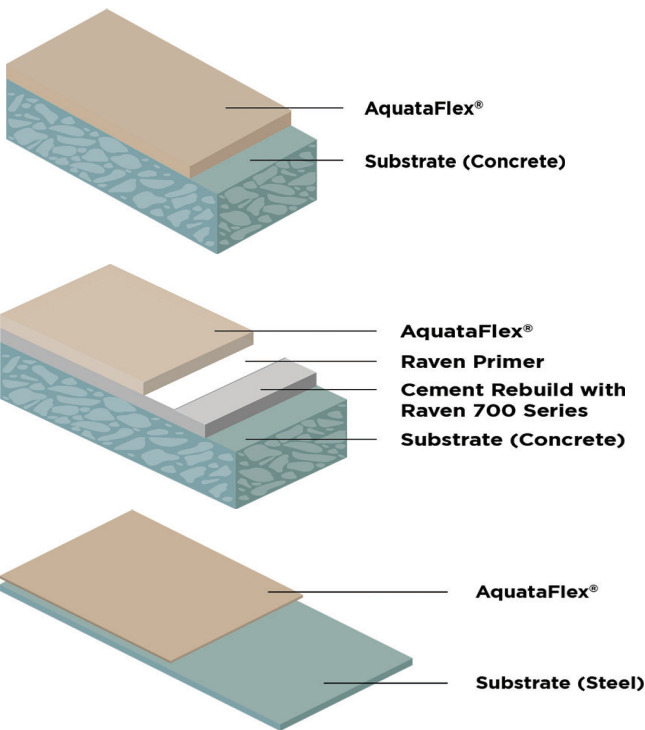

PRODUCT	RATIO	SUBSTRATE	ANSI 61 POTABLE WATER CERTIFICATION	APPLICATION METHOD EQUIPMENT
AQUATAFLEX® 505	1A:3B	CONCRETE STEEL ALUMINUM FIBERGLASS WOOD	TANKS & PIPES	GRACO XP50 TYPE HEATED PLURAL COMPONENT STATIC MIX WAND
AQUATAFLEX® 506	1A:1B	CONCRETE STEEL ALUMINUM FIBERGLASS WOOD	TANKS & PIPES	GRACO REACTOR TYPE H.P.P.C. 150 F/2200 psi

The AquataFlex® technology takes advantage of a polyurethane backbone with novolac epoxy functionality built into the polymer chain.

TYPICAL APPLICATIONS

- ↳ Concrete or Steel Water/Wastewater Lining
- ↳ Potable Water Tanks, Reservoirs, Basins, Pipes
- ↳ Primary and Secondary Containment
- ↳ Clarifiers, Digesters
- ↳ Aquatic Wildlife Habitats
- ↳ Concrete Waterproofing

TYPICAL CONFIGURATIONS

AQUATAFLEX®

100 % Solids| VOC FREE

ANSI-61 Certified

Exceptional SWAT
ASTM G 210

USDA Bio-Based
Certified

Excellent
Moisture Vapor
Transmission Barrier

QUICK
Return to Service
